BANKED

One trade wins.
The next one can erase it.

As the position grows, the next trade feels easier to size up. Gains without a plan stay exposed.

THE CYCLE

Win 1 SOL

Size up

Risk the gain

Most active stock-trading households: 11.4% annual return vs 17.9% market, 1991–96.

Barber & Odean, Journal of Finance (2000)

BANKED

Keep 10 SOL. Route only the excess.

Wallet at 9 SOL: sell 0

11 SOL

10 SOL stays in wallet

1 SOL excess to sell → **125.030864 USDC**

SPYX	JUP	KEEP USDC
20%	20%	60%
25.006172 USDC	25.006172 USDC	75.01852 USDC

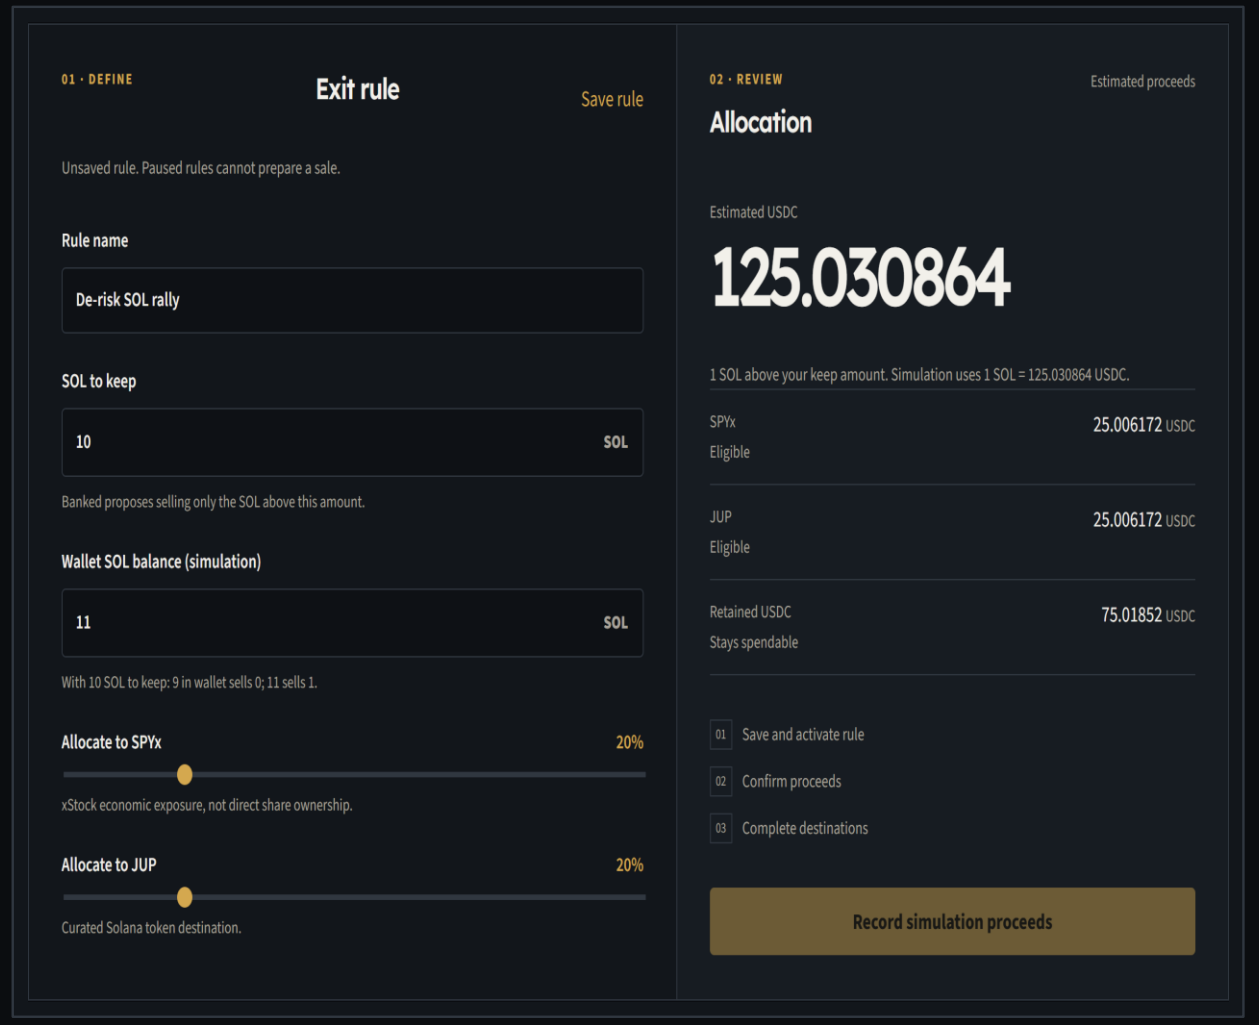

BANKED

Set the balance. Activate the rule.

Set SOL to keep.

Choose where USDC goes.

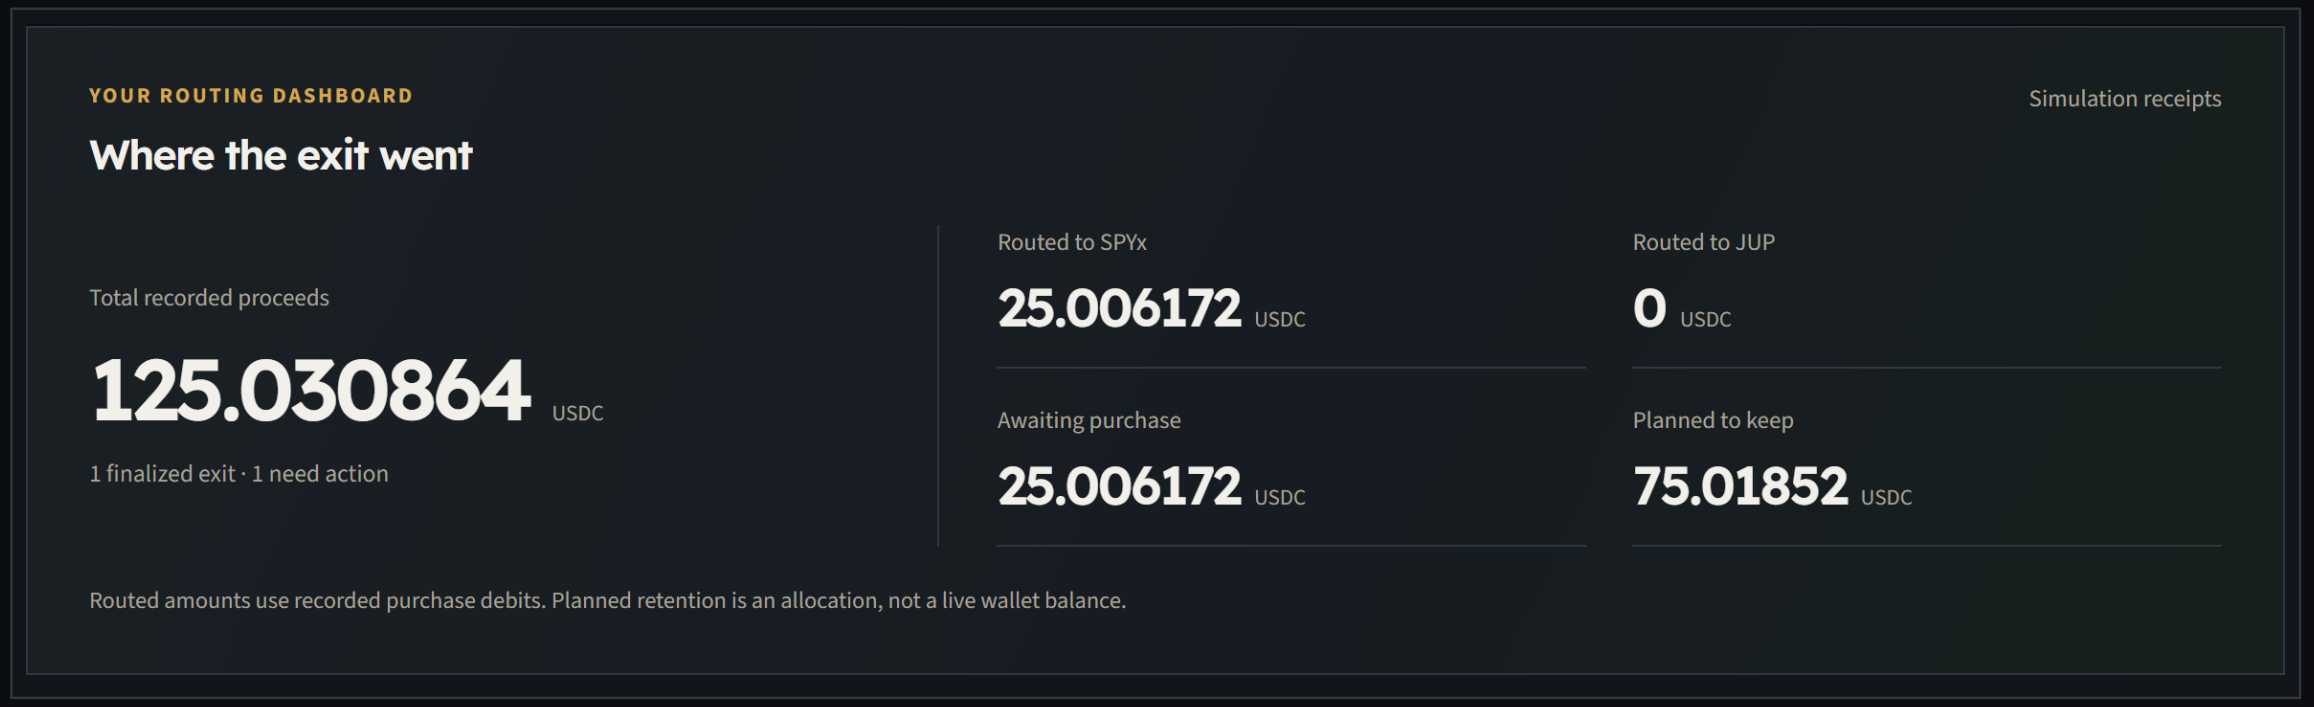

Review each next step.

BANKED

After the sale, see where the money went.

SPYx completed. JUP still waiting.

BANKED

A bigger trade needs a stronger plan.

My trade size grew faster than my discipline.

01

Decide early

Set the rule before selling

02

Split proceeds

Give each share a job

03

Stay honest

See unfinished actions

BANKED

SOL, USDC, and SPYx share one wallet.

01 Sell SOL into USDC

02 Route a share toward SPYx or JUP

03 Check the receipt for every step

Why now: tokenized stocks are already live on Solana. Solana Foundation, 2025

BANKED

A focused market is already on Solana.

190K+

xStocks holders on Solana

Solana Foundation, August 2026

FIRST CUSTOMER

A SOL trader who wants to split a realized win into stocks and USDC.

2% of 190K = 3,800 potential payers

Illustrative conversion, not measured demand

BANKED

Charge for the plan, not more trades.
